4. Ballagulla - do -
5. Choultry at Arature

The amount from the Reserve Funds to be
allotted for each to be determined here-
after

III. The Committee approve of an

allotment of Rs 500 being made for Antersanti
Water supply Project from the Reserve Grant
of Rs 2200 under Repairs Miscellaneous Public
Improvements.

IV. The Committee approve of the
following estimates for Tank repairs and
appropriations for the same from the sum
of Rs 25,000, being the Reserve Grant provision
in Budget for Irrigation works:

Total Rupees 315.

V. In order to prevent delay in the
execution of works, the Committee consider
it necessary to delegate authority jointly
to the Dy. Commissioner and Executive Engineer
to proceed with works, subject to the submission
of a statement of works so carried out to
the Committee at next subsequent meeting.

VI. The bridging of the left body
of the Mandya tank was proposed, by
the Amildar of Mandya Taluk, ^{and while approving of the work.} the
Committee consider that it should be
taken

6

taken up by the Railway Department as a necessary and important Railway Feeder

Committee, the Amildars in the District
were absent from the meeting owing to
the necessity of their attending to the
Jamabandy duties

II. The collections for 1880-81 are
estimated

Estimated at ~~Rs.~~ 47,645 which includes a sum of ~~Rs.~~ 8400 to be allotted for "Education". The net amount at the disposal of the Committee would therefore be ~~Rs.~~ 39425 for the ensuing year.

Form W. Part IV. to VII.

III The Public Works expenditure estimated is as follows:-

For original works 8500 Establishment 10,361.

" Repairs - 20184. Tools & plant 200

Total ~~Rs.~~ 39245

IV The works shown under the head original are as below:-

1. Constructing tunnels on the 2^d and 3^d section of the Chintamani - Bajrapalli Road. . . . ~~Rs.~~ 6000

2. D^d of the Malbarga - Shrinivasapur Road. " 2000

3. Prospective grant. . . . " 300

4. Miscellaneous Public improvement viz^t planting avenues constructing Cattle pounds & ca. . . . " 200

Total allotment. 8500

V.

- x 1. Bajapalli - Chelur Road
2. Hanasandra - Vypanahalli road
3. Sidlagatta - Vadaganahalli rd

I The amount estimated for expenditure under head Repairs including the sewer grant (Rs. 25,94) for special repairs of road and 3^d class Travellers Bungalows and the allotment (Rs. 300) for R.H. and wells, cattle pounds &c., is Rs. 20,184 or Rs. 1232 less than the provision made for 1879-80. Several roads have been grouped together under one designation in view to facilitate the preparation of estimates and accounts and the number of the roads is thus reduced to 16 from 32 allowing a mean rate of allowance for the whole distance. In some cases the rates of the maintenance allowances have been increased according to the condition and traffic of the roads as particularised in part III of the Budget Statement. It has been also shown that no provision is necessary for the upkeep of the marginally worn roads until their thorough completion.

II The establishment cost under —
part

part IV A is calculated at 20 per cent
on Rs. 36292 available for expenditure
on Public Works &c. Under part II B.
an additional provision of Rs. 150 is
made for bedding and the clothing
of the indoor patients of the Dispensary
at Kolar, the Assistant Apothecary
having applied that though additional
sum is absolutely necessary.

VII A sum of Rs. 200 has been allotted
for tools &c. under head "Tools and plants".

VIII The Committee resolve that due
information be given to the Director of
Public Instruction of the amount allot-
ted for "Education" viz. Rs. 8400.

IX The written proposals of the
Amildass, who had to be absent from
the meeting being read out, the Com-
mittee resolve that they are unable
to consider the same owing to the in-
sufficiency of Funds.

X The Committee further observe
that no steps could be taken even
in

in 1880-81 towards the repayment
of the loan of Rs. 10,431 as the position
of the finances cannot admit of the
same. It is therefore resolved that the
Government be requested to keep up
the matter in abeyance till the collections
show a surplus over the expenditure.

information of the Chief Commr
the Proceedings of the District Finances
Committee, Kapan, dated 28th
August 1879, together with copy
of my letter to the Dy Commissioner

opinion regarding the various
projects therein recommended.

hereafter be submitted by the
Deputy Commissioner direct to

in the (Chief Commr's) printed

To

The Dy. Commissioner
Hassan District

Sir,

I have the honor to acknowledge receipt of your docket No. 601 dated 4th instant forwarding the Proceedings of ^{the} Local Fund Committee dated 28th August 1879, and in reply to make the following observations.

Para I. The first proposal for repairing the Musafarkhana at Tradehalli on the Hassan Belur Road, at an outlay of ~~Rs~~ 84 instead of removing it to Suledanahalli, is approved. It is not apparent what control the District Fund Committee has over the Police Station at Suledanahalli, which it is proposed to remove to Tradehalli.

Para II. A Plan and Estimate may be prepared for the proposed dispensary at Chennarayana, as recommended by the Civil Surgeon and Executive Engineer.

Para III. I concur in the remarks of the Committee that the tracing of ^{the} Kanahal Dagoonda Road, which was undertaken

after prolonged discussion and consideration,
should be pushed on. It is of importance
that a good trace is made even tho'
the completion of the trace may be delayed.

There seems to be no objection to the VIth Plan
appropriation for the improvement of
the Kishore Lake Road of a sum of ~~Rs~~ 500
allotted for tunnels on the Savana-Balagala
Road, separate provision for the latter project
being made in the Estimate for the proposed
improvement of the Savana-Balagala
Bagamangala road. But a complete
Estimate should be prepared for all that
is required to the Kishore Lake road.

The proposal for adding a Bathroom Vth Plan
with out-houses to the portion of the
School Building at Akulgaode, which
has been set apart for the use of Travellers
may be carried out the cost being met
from the "Reserve Grant" Original communica-
tion."

The necessity for providing a Police
Bungalow at Adige a mile from Subbiky
on the Gudgaon Road should be fully
explained before the Adige Bungalow and
out-houses are purchased for the purpose.
As Mr. Jones considers that this Bungalow
will be much used by his Department

VIth Plan

it does not appear that the project is recommended for the ~~use of~~ Travellers.

Para VII & VIII

The projects of constructing ⁶ Ferry

At Gooor
" Karcipur
" Gummy
" Rannathapur
" Belur crossing
" Ujjihalli &c

Boats with a flat form proposed by Mr. Sharp and ^{Mr.} Wilson at an aggregate outlay of ~~Rs~~ 1000 are approved, the charge being met from the "Reserve Grant."

Para IX

Before any expenditure is incurred, a full report should be made regarding the necessity for constructing at an ^{is} estimated outlay of ~~Rs~~ 1500, a 3^d class Travellers Bungalow at Hadehalli on the Hassan Belur Road proposed by the Amildar of Hassan.

Para X

The project of constructing for ~~Rs~~ 1800 a Musafirkhana at Hiranahalli on the Mangrabad Ghant does not appear so urgent as so necessitate the expenditure of ~~Rs~~ 500 during the current official year, although it may be entered in the District Fund Budget for the ensuing official year. Should you however consider this needed, the necessary estimate should be prepared and the circumstances under which it is proposed to put the work in hand during the current official year fully explained.

provision having been made for the same in the Budget for the current financial year.

An Estimate and Plan may be prepared as proposed for commencing Sukiespur with the Hissar Behindrapur Road, but the necessity for putting the work in hand at once seems doubtful, as the Hissar Behindrapur Road work has not yet been completed. The arrangements XII Para proposed for pushing on the latter work are approved.

All deviations from the estimates in the Sanctioned Budget should be submitted for the Chief Commissioner's sanction XIII Para

The proposed appropriation of Rs 200 on the repairs to the Ahar Road in addition to the maintenance allowance is approved, as also the proposal for raising from Rs 10 to Rs 20 the allotment for the Dargahalli Road. XIV Para

The proposed alteration in the nomenclature of Roads calls for no remarks. XV Para

I. Proposed by Mr. Groves Executive Engineer, that instead of removing the Musafirkhana to Entedavurhalli from Madichalli on the Hapsa-Belur road, it be repaired at a cost of Rs. 80, and that the Police Station, which is now unsafe, should be removed from Entedavurhalli and be built near it, which would give the building the needed protection. Seconded by Amildar Ramamijayar and Carried.

II. It was agreed that the Board support the views of the Civil Surgeon and Executive Engineer in the submission of a plan and estimate for the construction

of the Dispensed Dispensary at ²⁰⁴Thornbury Park

III. Proposed by Mr. Jones that the construction of the Kambal - Nagunda Road be again postponed and the sum of Rs. 1000. allotted for the trace be spent on works requiring completion. The reason advanced for the step is that the trace is not yet completed satisfactorily, and owing to new Departmental arrangements no reasonable sum is at present available to complete it the country traversed being very difficult; that consequently the work of opening out has not been begun, and when it is begun it will prove very costly owing to the difficult nature of the country traversed; and that it is more desirable to utilize the allotment towards completing other works considerably advanced towards completion: Hosur - Chendragiri, Sravanabelagola - Nagaimangala, and Hassan - Halebid, roads.

On the proposal being put to the meeting, it was carried by a large majority that the desirability of opening out the rich valley off En Dagunda having been admitted to

far back as ~~ten~~ years ago and the matter decided upon at several meetings of the Board, any further postponement of the work by the Department of Public Works would be virtually an abandonment of it and be unjust to the people of the Country whose needs require to be studied. As the Land Revenue of the Salub. will shortly be settled, sufficient funds will be forthcoming to justify the Board in proceeding with the work, which can be carried out in sections, that lying in this District being undertaken first. It is requested that the Executive Engineer may be directed to lose no further time in pushing on the trace.

IV. Mr. Sharp proposes to transfer the 500 Rs. allotted for tunnels on the Cravanabalapla road, to the Kikkéri-Hippé road which is in need of being retraced and opened out. It is understood that an estimate for the improvements of the Cravanabalapla-tayamangala road has been made, and the cost of tunnels should be included in it. Seconded by the Amildar of Kemaroypatha and Carried

26

V. Mr. Shark reports that out house and a bath room. He built at the Arkalgud School room, for the use of travellers for whose accommodation a room has been set apart. Secured by the Amildar and carried. The expense to be met from the Reserve Grant "Original Communication".

VI. Mr. Wilson reports that Mr. King's Bungalow and out house at Hadiga 9 miles from Saklespur on the Middle road, he purchased for a 3rd Class bungalow for Rs. 2000 which amount the Deputy Commissioner considers may be reduced by a Grant from the Civil works for a portion of the grounds, which may be utilized for a Police Station that at Hanabal close by together with plans but being dilapidated is so much as to necessitate the very early construction of new buildings of a more substantial nature. Mr. Jones considers that the bungalow will be much used by his Department, and is well worth the

Sum asked, the materials themselves,
being worth nearly that amount.
The proposal is cleared by Mr Rammam-
-jenyar, formerly Amildar of Mauja:
-rabad, and carried. Half of the
amount will be allotted from the
reserve "Original Communication"
of the current year and the balance
be paid in the next official year.

VII. Mr. Sharp proposes that a
sum of Rs. 800 be devoted in his sub-
Division to the construction of four ferry
boats at Gornir, Marsipur and Gumi
on the Hamavati, and Ramnadsipur
on the Ganuery river, to be met from the
reserve grant. Carried.

VIII. Mr. Wilson proposes that
a janyar comprising 2 ferry boats
and a platform be also provided,
one for each of the Belur and Dyiballi
Crossings at Rs. 200 each. to be met
from the reserve grant. Carried.

IX. The Amildar of Hassan pro-
-poses that a 3^d Class Bungalow be
built at Madihalli on the Hapau

28

Baling road at a cost of Rs. 1800. as
an estimate, and points out that
the want of accommodation is much
felt by travellers. Carried - Rs. 500
may be allotted for the current year.

X. Proposed by Mr. Liller, and
seconded by Srikantana. That a
Muscaturkhana be built at Marnihalla
on the Kanjarahad shah; for about
Rs. 1800 upon the Kalebra plan, for which
Rs. 500 will be allotted from the reserve
grants - Carried

XI. Proposed by Srikantana that
a link to connect Lakhsipur with the
Hossur Chendrapur road be made for
two miles. The road to be made to carry the
the earth work in the open, provided
Government undertake to make an
embankment and construct a bridge.

Agreed that the Assistant
Engineer be requested to prepare the
 requisite plan and estimate, and that
the question of providing funds be
considered at the next meeting.

XII. Mr. Grouse lays before the

Board of Letter No. of the
from the Superintending Engineer
inquiring why work is not progressing
on the Hossur-Chandragiri road.

The Committee observe that Rs.
630 are allotted for repairing it, but
it is desirable that the first section
from Hossur to Arhalli and the last
section from Anjur to Gouibid be con-
-pleted and made trafficable first.
The Rs. 630 should be utilized in re-
-pairing thoroughly the first portion
of the road, which is situated in the
Hassan District, at a higher rate per
mile than fixed in the budget, and
a further allotment of Rs. 1000 should
now be made from the reserve grant
for expenditure on the original work.
The improvement and repair of the
portion of the road in the Gouibid or
Maganu should be left to be under-
-taken from the local funds of the
Kadur District.

————— " —————

XIII - Read Letter No. 2725 of the 16th
July 1879 from the Superintending Engineer
to the Executive Engineer, Cohee Division.

38

Resolved that the Board dele-
-gate to the President and the Executive
Engineer with retrospective effect
the power of approving all estimates
prior to their submission to the Chief
Commissioner, and invest them with
authority to sanction petty estimates
and grant allotments for the same from
local cess and irrigation cess reserve
grants within the power of the Board,
and to make all such re-appropriation
generally as may be found needed, carried

"

XIV. Resolved that a grant of Rs. 200
be made for the repair of the Alur
road in addition to the Rs. 20 per
mile allowed, and that the allot-
-ment for the Nujikalli road be
raised from Rs. 15 to Rs. 25. The extra
expenditure to be met from the reserve
repair Communication Grant.

XV. Resolved that the alterations
in the nomenclature of roads as per
lists attached, be made as recom-
-mended by Messrs. Groves and Sharp.

Despatch 12th

To

The Secretary to the
Chief Commissioner of Mysore
Revenue Department

Sir,

In transmitting for the
orders of the Chief Commissioner,
the Local Fund Board Proceed-
ings of the Kadar District of
16th October last and the Budget
for 1880-81 therewith enclosed,
I have the honor to submit a
Tabular Statement prepared in
this office, in which those items
of proposed expenditure which
are not essential, have been
separated from those for which
provision is necessary.

2 The estimated receipts
as shown in para 1 of the
Proceedings

Proceedings of the Committee
amount to Rs. 41,231, composed
as follows:-

Local Funds - Rs. 29,671.

Irrigation less Fund " 11,400.

Balance estimated " 160.
41,231

3. The estimated expenditure
amounts to Rs. 63,924; thus ex-
ceeding the estimated receipts
by Rs. 22,693, which the Com-
mittee ask to be made up
by grants from Local Funds
General & other provincial &
sources.

4. In Column 2 of the
Tabular Statement I have
shown such items of expenditure
as appear susceptible of reduc-
tion or postponement, where the
projects

projects have not been already estimated for and sanctioned - thus reducing the Budget to Rs 45,541. The excess over the estimated receipts will then amount to Rs 4,310 only.

5. If the Chief Commissioner be pleased to grant an allotment of Rs 10,000 from the P. W. D. Budget, it will be practicable for the Local Fund Committee to carry out the very useful works & devoted in items Nos 1 & 2 of Column 2 of the Tabular Statement.

6. The following remarks refer to the items entered in column 2 of the Tabular Statement.

No. 2. Kalasa Sami road -

The Committee expect to receive contributions to the amount of Rs 2,500 for this project,
the

the Estimate for which however has to be submitted.

N^o 3. Kalasa Balay honore road. The project for iron bridges on this road has not been sanctioned.

N^{os} 4 & 5. Musafir khana.

These projects should be deferred until funds are available.

N^o 6. Under "Original Reserve", Rs. 5,000 have been provided but the projects have not been sanctioned. The Reserve has been reduced by Rs. 3,000.

N^o 7. Under "Repairs Communications", Rs. 18,915. have been provided for the annual maintenance of 295 miles of road. At. 60 per mile allowed (vide C. Commr's Proc: above

above quoted) the grant may be fixed at Rs. 18,000 and the excess of Rs. 913 disallowed.

N^o. 8. Under the head Establishment A, the sum of Rs. 7,313 has been provided. If the reductions made in Column 2 of the Tabular Statement be approved, the expenditure on this head will be curtailed and reduced by Rs. 2245.

I have the honor to be

No 4393

Deputy Accountant General's Office
Bangalore 13th December 1879.

From

The Deputy Accountant General

To

The Secretary to the Chief Commissioner
Revenue Department

Sir

I have the honor to return the
Budget Estimate of the Madras District
Fund for 1880-81 and connected papers

Commissioner of Madras enclosed in the letter as per margin and
No 517 of 6th November 1879 to submit a Statement of Assets prepared
received with Secretary's
Endorsement of 18 November in this Office

The principal item of income, namely
the District Fund's share of local cess
is estimated by the Local Committee at
Rs 22,852 on the basis of a half Anna Cess on
unsurveyed and a one Anna Cess on the
Surveyed lands. The previous year's
Estimate as approved in your Office was
however Rs 16,489 only, and it is nowhere
explained why so large an increase was
expected. Since the Committee's budget
was framed it has been determined
to

Local Committee's
Estimate 1880-81.

Half Anna Cess 9504

One Anna Cess - 13348
22852

to levy the One Anna Cess on unsurveyed lands as well with effect from the current year, and if the Committee's Estimate of the half Anna Cess, Rs 9504, be accepted, the amount should be doubled (Rs 19008) making the total cess Rs 32,356. I am inclined however to doubt the accuracy of these figures. I am aware of no ground to expect that the Land Revenue of the ensuing year will so much exceed that of 1877-50 as to contribute so large an amount of Cess towards the District Fund and I would suggest that ~~the~~ Commissioner be required to reconsider the Committee's Estimate of the item in question.

Under "Ferry collections" the sum of Rs 140/ might well be raised to Rs 500/ and the receipts from Cattle fairs and sales from 1136 1/2 Rs 2500/ judging from the past realizations under these heads.

I have the honor to be,
Sir,
Your most obedient Servant,

Deputy Accountant General

Read letters from Messrs Wilson and Stephenson,
and Amildars of Harijabad, Htikappa,
Belur and Karcipar, and from Mahant Gowda
of Belur, stating their inability to attend the

meeting

meeting for reasons stated; but submitting,
each of them, proposals to be discussed by
the Committee.

II. Read letter No 580 of the 29th September
1879 from the Commissioner, Adityagram Divi-
sion, commenting on the previous proceedings
of the Committee under date 27th August inst.

The Committee after some discussion
concluded that it would be most desirable
to move the Masafurkhana to Sulainour
habli, as the village is upon the road,
and more convenient to travellers than the
present site, which is at a distance from
Sulainour. The cost of removal Rs. 297 is
provided for in the current year's budget.

III. With reference to the Shankal-Depunda
road, project Mr. Lilly, Assistant Engineer,
brings to notice that the tracing cannot
be commenced until it can be undertaken by his De-
partment, and that since Mr. Sanderson has
recently opened out a road to his estate at
Kanchur from Ajur, it is doubtful whether
it would not be preferable to make the
connection with the Budgeri road at Ajur,
instead of Shankal as proposed.

Resolved that under these circum-
stances the project be postponed for the
current year, and be taken up next year:
the authorities in the K'adar District being
communicated with as to the advisability

of the proposed deviation, and it will affect that District.

IX. With reference to the proposal to buy Mrs King's bungalow at Madige for a 3rd class bungalow, the Committee resolve not to proceed with the matter, as the building will be of comparatively little use to travellers. Its purchase was contemplated under the idea that it would be useful also as an inspection lodge and Police station.

I. The Committee resolve to expend Rs. 400 from the current year's reserve original in the construction of ferry boats, and to provide funds also in next year's budget for the said purpose.

II. They beg to point out that the want of a 3rd class Traveller's Bungalow at Madikallu has long been felt as a desideratum by travellers between Hassan and Chikmagalur, and that their number is likely to increase on the completion of the Railway to the French-Rocks. They propose now to construct it at Subekurhalu, so that it may be near the village and Mossafirkhand, and in the estimate of Rs. 1776, now submitted, is sanctioned Rs. 450 will be spent this year from the head reserve original communication: the remainder being provided from next year's budget.

III. The want of accommodation is so

much felt at Maranahalli on the Manjarabad
ghat, that the Committee deem the construction
of a Moosafikhanah there of immediate
importance; and therefore, as funds are
available, resolve to allot Rs 400 for it this
year under the head reserve original com:
munications, and Rs 2,000 from next year's
budget. *

* Estimate will follow.

VIII. With reference to the remark made on the
non-completion of the Hosur-Chendrapur
road, the Committee are of opinion that the
road should never have started from Hosur
but from Bekade or Chakkapur. By making
the link from Chakkapur to Kadabanhalli
the present road will become of some use:
therefore the Committee resolve to abandon the
portion between Kadabanhalli and Hosur,
and utilize the repair allotment of Rs 630
for the present year on the road from Kichalli
to Kadabanhalli, and to seek the early pre:
paration of the plan and estimate of the
portion between Kadabanhalli and Chakkapur.
The question of completing the road
is not of present importance, and must stand
over till the result of the link to Chakkapur
is seen.

IX. Mr. Periam, Executive Engineer, proposes
that a contribution of Rs 2,000 be made from
this year's budget from the head original
communication reserve, towards the con:
struction of the bullock track down the
Bisali ghat; also that Rs 700- be transferred

Will follow

from Miscellaneous Public Improvement to original
communication reserve. This measure is deemed
advisable as the funds which are available
cannot be utilized otherwise: Carried. Re-
appropriation statement is submitted

X. Read draft budget for the year 1880-81
with the Executive Engineer's Memo thereon.

- (1) The Committee approve of the allotments
as proposed. They trust that by the time a
Dispensary at Channarayana is complete,
a Hospital Assistant and establishment
will be provided. The additions proposed
to the Kasean Hospital are intended to ben-
efit patients from all parts of the District,
and has received the verbal approval of the
Chief Commissioner. Mr. Stephenson urges
- (2) the early construction of the proposed bridge
over the Borthalla and Bankallihalla
streams on the Siphalli-Biele road, which
are impassable during the monsoon. The
want of cart stands at Kirikere and
- (4) Arakere is much felt, as represented by
the Amildars of Channarayana and Kurn-
halli. The latter has also pointed out the
need of stone Mantapams by the side of the
public well for the convenience of travellers
- (5) The Committee further admit the urgent
need of bridges at the Chuk-Kadanur

drainage and at the Maumakere Meebaha on the Mysore-Hassan road, as proposed by Mr. Sharp, Assistant Engineer.

The Committee are prepared to contribute next year also to the construction and maintenance of the Biele' ghat, provided that the proceeds of the toll, which may be established on its completion, will be made over to Local funds, and therefore agree to Rs 3,000 being provided in next year's budget for the purpose.

The Committee likewise concur in the desirability of raising the allotment for next year for the repair of certain roads, as it is of great importance that they should be put in good order.

They resolve to engage the services of a District Surveyor to prepare and compute estimates for new projects, such as the Shra: vanabelgula road, and several roads in the Channel portion of the Attikuppa Taluk which are needed as railway feeders to the French-Rocks station. They are now unable to send up any new projects consequent on the Overseers of the D. P. W. being fully occupied in carrying out works in addition to the preparation of Irrigation projects.

H.B. It will be found practicable to make

make allotments from the Reserve original
for tracing roads.

XI. On the proposal of the Amildar, the
Committee decide on providing in next year's
budget for the employment of a sweeper on
Rs 5 per mensem for the Moosapukhanda
at Channarayana.

XII The Amildar of Arkalgud proposes
that stone pillars with chains be put up as
a protection on both sides of the road on
the tank bund between the fort and Petta
of Arkalgud.

Resolved that the Executive Engineer
be requested to prepare an estimate, and
that if the work is carried out by the Muni-
cipality, the District fund bear half the cost,
as it forms part of the Hassan-Ramanadga
road.

XIII. The Committee sanction from the
current year's allotment under the head
Miscellaneous Public Improvements origi-
nal, the disbursement of Rs 100 towards the
construction of a well near the Chuttrum
at Atikapa.

Local Funds Budget
for 1880-81

The Budget has been prepared for the amount of Rupees 84624 of this Rs 22000 will be provided for from Irrigation fees and must be deducted leaving Rs 61824 to be provided for from the Local Funds. The Revenue is estimated at Rs 55717, to this must be added Rs 164 the balance of last year's revenue Rs 3000 the probable lapse on original works and Rs 2943 the probable lapse on road repairs ^{for 1879-80} the total amount — available for expenditure during 1880-81 is thus Rs 61824; for which the Budget has been drawn up.

Original works 2. The proposed grant for original works amounts to Rupees 20,886, as against Rs 11,503. the grant for the current year.

The allowance for buildings is Rs 3200; Rs 1000 being provided for the Dispensary at Chenmaroyapataun and Rs 2000 for much needed additions to the

Hospital at Raigan, the cost of which will probably amount to Rs 4000. The approval of the Chief Commissioner has been personally obtained and estimates will follow.

The grant for Original Communications provides for the following buildings.

A 3rd class Travellers bungalow at Sootidevarhingi.

A Musafirkhana at Karna Bully, at present there is no accommodation for native Travellers on the Meerutabad Ghat.

Randy Stands at Keresani and Arsehere.

A Mountapurn at Arsehere
It also provides for bridging streams on the following roads.

Bridging streams at Kavinahuby & Kadavar on the Moyone Hassan Road.

Bridging two streams on the Sigoor Bisley Road.

Also for constructing a road from Sukhiachar to Rudabauahulla; from Hauavall to Dagoonda.

A contribution of Rs 3000 is provided towards the cost of constructing a Pack Bullock track down the Bislay Ghat.

2. The allowance for repairs Communications has been increased from Rs 17,930 to Rs 25,312

The allowance is for many of the roads were

insufficient and have been ~~increased~~ ¹⁰⁰ the
allotments for the following Roads have been
with drawn, ~~as~~ there is very little if any traffic
over them.

1. Tumkur District
Deputy Commissioner's Office
Tumkur, 22^d October 1879.

To,

The Secretary to the
Chief Commissioner of Mysore
Department Public Works.

Sir,

I have the honor to submit herewith for the orders of the Chief Commissioner a copy of the Proceedings of a Meeting of the District Committee, held on the 22^d Instant.

2. Resolution Nos: 1 to 4 passed at the said meeting relate to the Administration of the District Irrigation Fund during the current year 1879-80, and contain the approval of the Committee of the Projects already in hand. It will be seen from Appendix No: 2 to the Proceedings of the Committee that the probable Expenditure on account of these projects in the surveyed Taluhs up to 31st March 1880 is put down at Rs: 17,000.

In addition to this amount the projects already in hand in the unsurveyed Taluhs are expected to cost Rupees 5,000 - " - " The total expenditure on works would therefore amount to Rupees 22,000, the appropriation for the year being only Rupees 10,000 - Advertising

Adverting to your letter No 3338 dated 30th
August 1879 I would beg to recommend
that the required additional provision of
funds may be made. I have furnished Mr
Marder with a detailed list of the different
works in order that he may be able to communi-
cate to you direct any further information
which may be necessary.

3. Resolutions Nos: 5, 6 and 7 and the
Appendices Nos: 2, 3 and 4 refer to the
anticipated probable assets of the District
Irrigation fund on 1st April 1880, and the
proposed Expenditure during 1880-81.

4. Resolution No: 8 and Appendix No: 5
contain the Committee's approval of the Local
Fund Works for 1879-80. Resolution No: 11 and
Appendix No: 6 relate to probable income
and Expenditure of Local Funds in 1880-81.

5. Resolutions Nos: 9 and 10 refer to
the proposed Hagalwadi - Bellavi Road
and the way in which the Committee propose
to provide funds during the current year
for the immediate commencement of this
very important work which is calculated
to be highly beneficial to the people. It
would

would tend to open out the Hagalwady Valley and its vicinity now so ~~completely~~ ^{completely} inaccessible to wheeled traffic. At present the produce of this part of the country as well as that of the Bukkapatam side of the Sira Taluk and of the Timmanhalli and Madanamadu side of the Rudihal Taluk is all carried upon pack bullocks to the great market at Bellair which is connected with Timkur by a tolerably good road of 8 miles. The cost of this mode of carriage is so costly as to be prohibitive as regards a large class of valuable garden produce. The Survey Superintendent when reporting upon the Chikkanayakanahalli Taluk was of opinion with reference to the Hagalwadi Valley that a fair weather road connecting Hagalwadi with Bukkapatam on the one side and with some place near Kiltur on the other would prove of great advantage "to this partially very rich partially now utterly desolate and wild District". I fully admit the great benefit likely to result from

from opening out Hagalwadi and its vicinity,
but I would prefer the existing line of traffic
and open out a road to Bellavi instead
of one to the Kithur side. Kithur is not a
convenient market and if Hagalwadi is
connected with Kithur the traffic must be
carried from the latter place to the large
market at Gubbi. Under these circumstances
I would strongly recommend early sanction
to the Hagalwadi Bellavi Road Via Hosakeri
and Chelur, and would request orders for
its immediate commencement from the
Hagalwadi end with the funds indicated
in Resolutions Nos. 9 and 10 --. Regarding
the road to the Dispensary at Tumkur referred
to in Resolution No. 10 I shall in few days submit
a proposal whereby a large saving could be
effected.

I have &c

already by the Executive Engineer for the repair of Tanks
in this District as per appended Statement No: 1
(each item being below Rs: 200-0-0) be approved
and sanctioned out of the current year's Irrigation
Funds appropriation.

2. Resolved that an Expenditure of Rs: 220-0-0

Sira

Sira Taluk, and of Rs: 660-0-0 for Tank No: 41
 Veerapoor in the Koratigeri Taluk (the works being
 urgent and already put in hand in the D.P.W.) be
 approved out of the Current year's Irrigation Fund
 Appropriation.

4. Read final issue of District Fund Budget for 1879-80 and letter to Deputy Commissioner from the Superintending Engineer No. 3338 dated 30th August/79 and resolved that in accordance with the letter above quoted, all expenditure on Tanks in the Chikkamayanahalli, Honnavalli Kadaba and Kunigal Taluqs during 1879-80 (out of the sum of Rs. 12,500 sanctioned in the Budget for this District) be regarded as loans to the particular Taluqs from the District Irrigation Funds, and be hereafter adjusted or otherwise recovered.

5. Read and approved Statement probable income of the District Irrigation Fund for 1880-81 Appendix No. 2.

6. Read and discussed projects for repair of Tanks &c for 1880-81 in the Taluqs of Tumkur, Sera, Koratigere, Muddegere and Chikkamayanahalli as per details given in the list marked as Appendix No. 3. An aggregate expenditure of Rupees 24,140 on account of the Tanks in these Taluqs is approved by the Committee, the amount actually required for each work being determined in the D.P.W. in communication with the Deputy Commissioner.

7. Read list of projects for repair of Tanks (Vide Appendix No. 4) and other Irrigation Works in the Kunigal, Kadaba and Honnavalli Taluqs.

Talukhs for 1880-81. The meeting is of opinion that these works, involving a probable expenditure of Rupees 21,650 should be undertaken from the Provincial Funds, but the Committee would not object to loans to the Talukhs named to the extent necessary from the District Irrigation Fund.

8. The Expenditure of Rs: 1299 during 1879-80 Local Funds. for the repairs of Travellers Bungalows, Moosa, Jurfkhanas, Communications, &c as per Appendix No: 5 is approved and sanctioned.

9. Read and approved the Survey Plans for the Hagulwadi - Bellavi Road via Hossekeri and Chailloor. The meeting is of opinion that this is a work of great importance and should be forthwith undertaken; that during the Famine a small part of this work was executed and the remainder abandoned; that on the 9th June last the Committee resolved that "the sum of Rs: 2000 - " - " provided for" constructing three tunnels on the Sira-Mysore road be spent if available for the construction of the Hagulwadi - Bellavi Road". that the Committee still adhere to that opinion, and further would postpone any expenditure on the Magadi - Huliyindurga road which is unimportant

123

important as compared with the Hagulwadi-Bellari road, and that under these circumstances Rs: 3131 provided in the Budget for 1879-80 for the Sira-Mysore and Magadi-Huliyurduurga roads be spent upon the Hagulwadi-Bellari road during 1879-80. The Committee further are of opinion that the Magadi-Huliyurduurga road is a work of unusual difficulty, and the outlay required is disproportionate to the importance of the work; they are of opinion that it is more useful for the Bangalore District than for the Tumkur District, especially as the Huliyurduurga-Muddoor road has now been opened for traffic. Under such circumstances the Committee believe that they would be justified in asking for a portion of the cost of the work in question being contributed from the Bangalore District.

10. Resolved that an Expenditure of Rupees 1311- " - " for a road to the Dispensary at Tumkur sanctioned in October 1876 is unnecessary. An Expenditure of within Rupees 100 for this purpose would be amply sufficient. The President is accordingly desired to report the matter to the Secretary to the Chief Commissioner P. W. D. and to utilize any savings sanctioned for

for the Hagulwadi-Bellavi road.

11. Read and approved Budget Statements of probable income and expenditure of District Local Funds for 1880-81 (Appendix No: 6). The only items in the Statements requiring notice are Rupees 4,000 for the Hagulwadi-Bellavi road, and Sira-Aurapoor road Rs: 5,337 - " - " both works being of importance in the opinion of the Committee.

12. Read and approved the Estimate for Rupees 522 - " - " for the repair of the 3rd class Travellers Bungalow at Kallumbhella, the work being put in hand in 1879-80 to the extent of funds available as shown in Appendix No: 5.

Letter from the Deputy Asst. General, N^o 5533 dated 1st March 1880, returning the District and Brigade Census Fund Budget Estimates of the Tumkur District for the year 1880-81.

District Funds.

The District Fund Revenue of the Tumkur District for the ensuing official year is estimated by the Local Fund Committee at Rs 40,812 and by the Dy. Accountant General at Rs 45,304. The estimate of the latter which is presumed to be more approximate may be accepted.

	Primitives	Total.
I Original Works -		
Communications	16,337	
Miscellaneous Public Improvements	663	
Total original Works		17,000
II Repairs - Communications	12,000	
III Contribution to D.P.W. Establishment	5,950	
Charges auditable by the Dy. Asst. G. L.	5,070	
Total		11,020
IV Tools and Plant	500	
Total		Rs 40,520

2. The proposed expenditure amounts to Rs 40,520 as shewn in the margin. Under Repairs - Communications Roads from "Oordageri to Devarayadurga" and from "Oordageri to Kortageri" are provided for, while in the current year's Budget the name Muddageri appears for Oordageri. The rate for repairing the 16 miles of the latter road is put down at Rs 3 per mile. This ought to be 35 Rs a mile - There appears to be an error in the Office. Corrections will be made in the Office. Extraneous insertion for

~~Rs 35~~ which was the sum provided for the current year

3. The contribution to be made from the district funds of the district to the M. R. establishment is estimated at Rs 5,750. ~~or~~ about 20 1/2 per cent on the anticipated outlay on Public Works. ~~This was the provision made year.~~
~~It was reduced to Rs 4,000~~
~~In the district of In the district of the~~
~~at 14 per cent of the outlay~~
~~as in the case of other~~
~~Districts.~~

4. Among the charges admissible to the Deputy Accountant General, the provision of Rs 720 made for the 1/4th share of the "Taliq for contingencies" for which there seems no necessity at present, may be struck out. The contribution to the establishment of the Revenue Secretary's office has to be entered at Rs 128 per annum.

5. The Government may be called upon to furnish details for the provisions of Rs 610 and 120 made for the Establishment charges of the Sanitarium and Kuniyal Dispensary respectively

respectively.

6- The ~~amount~~ of Rs 100 required for contingent charges and the additional provision of Rs 360 made for furniture for the Municipal Dispensary may be sanctioned.

Irrigation Cess Fund

Please see Vol. 7 of Appendix Statement
No 2 and the Local Fund Board's Pro.
of 2nd October 1879 paras 1 & 2.

Surveyed Rs

Unsurveyed Rs

7. The Receipts from the Irrigation cess may be estimated at Rs 76,000. The Dy. Commr requires Rs 24,140 for repairs of tanks in the Taluqs of Tumkur, Srir, Kortageri, Muddageri and Chikmagalur, and proposes that for a similar purpose loans to the amount of Rs 21,650 ^{may} ~~should~~ be granted from Irrigation Cess Fund to the Municipal, Kadaba and Honnavalli Taluqs of the District. Considering the large amount of receipts expected from Irrigation cess in the next year, the proposed charges which aggregate Rs 45,790 may be approved and a sum of Rs 4210, being about 10 percent of the same allotted for ^{such} establishment as may

may be absolutely
necessary to supervise
the irrigation work
in the District.

suggestions are approved,

Read

Part IV B. of the District
Fund Budget for 1880-81 for-
warded by the D. P. W. Secre-

Order thereon

It is observed that Part. IV B of the District Fund Budget: above read is based on the data furnished to H. O. Dy. Acctt. General from the ~~abstract~~ accounts as audited in his office and does not embrace the proposals contained in the District Fund Budgets of the several Districts for 1886-87. The Chief Commr is therefore pleased to order the following modification.

2. The two-third share of the charges of the Dispensary at Chosepet only has to be debited to the District Fund Budget the remaining one-third having already been provided for in the Unaccepted Budget of the town for the current year. The provisions newly made for the proposed dispensaries at Chagade, Chennarayana & Hingur and the one recently opened at Kadur as well as those ^{shown in the margin} ~~for certain other~~ charges, ~~on the Disbursements~~ ^{concerned} are sanctioned. Early arrangements should be made to open the dispensaries at these places. The allotment under ^{the head "Contingencies"} for the Kadur Dispensary has been raised ^{from Rs 120} to Rs 150 to meet miscellaneous charges.

has been relieved of all work in connection with the execution of local funded projects it is not apparent why the provisions entered as in last year under this head have not been reconsidered with reference to the actual requirements. Pending explanations which will be submitted by the Dy. Commr. as early as possible the provisions are 'allowed' to stand.

5. The $\frac{2}{3}$ share of the Travelling allowance to the Hosp. Asst. Apothecary at Rinsar entered in the Mysore Dy. Commr. Budget has been omitted in Part IV B. referred to. The omission has been supplied in this office.

6. Provisions have been made in this office for the full amount of the Sateleshpur Dispensary charges as per C. C. Pro No 2593-5 of 30th Aug. 1879, and for the one-third share of the cost of the Mysore Lying Hospital Establishment as directed in Pro. No. 456-4 of 20th April, 1880.

7. The allotment for consequences of the Ker. Department has been reduced to Rs. 5 per mensem.

charges which have late been rather largely incurred, pending reply from the Dy. North Genl. This Office Pro No 3879-80 of the 38th instant. As regards the Tumkur Dispensary the provisions made by the Government for the Establishment and District Charges is Rs 610 & 820, respectively as in last year, are retained.

3. The Entertainment of an Extra Local Fund Clerk in Rs 20, proposed for the Local Fund Committee's Office establishment in para 20, their Pro: of the 16th October 1879, in addition to the usual Statistical Clerk in Rs 20 per mensem as in other districts, appears unnecessary, as all the work has been transferred to the P. W. Department which allows 20 percent of the outlay on works for the necessary establishment & other charges.

4. It is observed that large provisions have been made in the Budget for meeting the charges on account of the Valuing Contingencies without any explanation as to their necessity. The Amildars of Valuing having

be allowed by the D. P. W.

Secretary in the shape of
a certain percentage of the
outlay on works.

8. The charges for the
establishment of a Dispen-
sary at Fort St. John, provided
for by the D. P. Com., have
been omitted, as the necessity
for the same has not been
explained.

9. The sum of Rs 121 9/16
termed as "Reserve" has been
allowed to stand.

10. Provision has also been
made in this office for the
